

Staff from SSE recently used their corporate volunteering hours to help paint The Tansy Centre in South Hylton.

"We all had a fantastic day at the Tansy Centre. Having the opportunity to work in the local community and make a real difference has been great. It means a lot to us to have had the chance to positively impact the residents of Sunderland and drive social value by creating a nice welcoming space for residents to use and socialise in."
Hannah Blenkinsop, Social Value Coordinator, SSE

"It's not just about the building it's about the community and those who use it. They deserve a nice fresh and welcoming space to relax in, so thanks to SSE Energy Solutions for making that possible. It also helps with the community centre's income as we can rent this room out, so it creates a great first impression".

Karen Parkinson, Centre Coordinator

"Thank you to Sunderland Voluntary Sector Alliance for supporting us in our corporate volunteering day today and matching us with the Tansy Centre. All the staff really enjoyed it and it's great to give back to the local community!"

Hannah Blenkinsop, Social Value Coordinator, SSE
